To SEED

Mary Joy Ethiopia, an Ethiopia resident charity organization, registered by Charities and Societies Agency with Reg. Book no. 0060, is established in 1994 with envisioning seeing healthy, poverty free and empowered society.

Mary Joy Ethiopia initiates Private-Public-Partnership program so as to avail opportunities for private sectors to discharge corporal social responsibilities and promote citizen engagement and partnership among development pillars: Government, private sectors and non-state actors for the good-social cause. We are very passionate to inform you that currently over 2,500 Orphans and Vulnerable Children and 500 vulnerable elder citizens have been sponsored by compassionate Ethiopians, private companies and individuals from all walks of life.

We would like to acknowledge **SEED** for providing 500 FACE MASK for Mary Joy Ethiopia for the highly vulnerable children and destitute elder support program. The support helps the organization to provide the masks for the highly vulnerable children and destitute elders in the fight against COVID-19. The contribution is exemplary for many others; above all it is essential for the highly vulnerable children who are in need of our the support during this difficult time.

With best Regards,
