

TRIBUTE TO MRS. ABEBECH GOBENA

The society of Ethiopians Established in the Diaspora, SEED, board is saddened by the sever loss of Mrs. Abebech Gobena, a 2008 SEED honoree. We feel a keen sense of loss in her passing. However, we are all comforted in the knowledge that she lives in the hearts and minds of over 100,000 orphans she has helped and other millions in various ways over the last few decades.

Dr. Abebech Gobena was honored by SEED for her acts of kindness that appealed to our collective consciences to do good for others and for the nobility and courage of her acts that have enabled fellow Ethiopians to live healthier and longer lives as well as in recognition of her selfless deportment as a role model who has endeared herself to our community.

She was an inspiring selfless humanitarian who has made significant difference in the lives of thousands of men, women, and children. She was honored for her love for Ethiopians regardless of where they come from and for successfully leading of her organization.

May her family derive some measure of comfort in in the knowledge that SEED shares their grief with them.

God bless her soul and give her extended and boundless family the strength to endure.
